MEMORANDUM FOR MR. ROY F. HENDRICKSON,
Director of Personnel.

Dear Mr. Hendrickson:

There is transmitted herewith a list of employees of the Bureau of Agricultural Engineering recommended for transfer to the Soil Conservation Service, effective July 1, 1939, under the provisions of Secretary's Memorandum No. 799, dated December 3, 1938.

This lists all of the Washington employees engaged on drainage activities and certain of the field employees who have been paid through the Washington Office. The list of the Washington employees includes, in addition to the information ordinarily required, the old Bureau of Agricultural Engineering classification sheet numbers, together with the new numbers in the Soil Conservation Service series. It is presumed that this information will be sufficient to change your records and the records of the Civil Service Commission covering these positions. In those cases where a classification sheet is pending, two numbers have been assigned--one for the present position and one for the classification sheet pending in the Commission.

There are also transmitted herewith Forms 41 covering the transfer of the field CCC drainage personnel, most of whom do not have Secretarial appointments but have been carried on informal field recorded Public 441 appointments up to this time.

Sincerely,

W. D. Bennett
Chief.
